Dear Ted, Gerald

I never dreamed I'd be doublecrossed or that a man who came across like Schlossman would do it or permit it so, of course, I did not intend to mislead you about what was supposed to happen only didn't.

You may want to ask yourself why those people at WBAI, about whom you have always been so high, would cut me off in detailing Oswald's clearances and assignment all so close to the CIA. Those not in his Marines record are at Cubi Point and two CIA operations against Sukarno in Indonesia.

I was not able to hear much of it so I do look forward to the tape.

Thanks, I hope you stay well,

P.S. Do you know anything about Adler?
